- › Free advice on a range of home financing products offered by RBC Royal Bank and mortgage information available where and when you want.
- › Pre-approval and help arranging your financing.

For assistance on arranging your mortgage, please give me a call.

‡ The annual percentage rate (APR) is based on a \$100,000 mortgage for the stated term assuming certain cost of borrowing charges (for example, appraisal fees). If there are no cost of borrowing charges, the APR and the interest rate will be the same. † This is the effective rate assuming half of mortgage principal is allocated to a mortgage and the other half is allocated to a mortgage.

For fixed rate mortgages, interest is compounded half-yearly, not in advance and the rate shown as "Your rate" is a discounted rate based on the posted rates of Royal Bank of Canada on January 21, 2009. For variable rate mortgages, interest is calculated not in advance, with the same frequency as payments are made. RBC Posted Rates for variable rate mortgages are based on the prime rate which is the annual rate of interest announced by Royal Bank of Canada from time to time as its prime rate. On January 21, 2009 the prime rate was 3.00%, the RBC Posted Rate for open variable rate mortgages was prime + 1.00% and the RBC Posted Rate for closed variable rate mortgages was prime + 0.80%. Rates subject to change without notice. Offer may be changed, withdrawn or extended at any time, without notice. Applicable to residential mortgages only and subject to Royal Bank of Canada lending criteria for residential properties. Not available in combination with any other discounts, offers or promotions. ** The lesser of the appraised value or the purchase price. © Registered trademarks of Royal Bank of Canada.
